Dear Kaoru,

I am thrilled to welcome the PMI Japan Chapter to the Project Management Institute Educational Foundation donor family! Thanks to your chapter's generosity, together we can put project management to work for social good and inspire change in the lives of people and communities around the globe. Your recent donation to PMIEF of US\$4500 received on 27 December 2017 demonstrates your commitment to the power of project management and how it can be used as a life skill, a learning skill, and a career skill.

By bringing project management knowledge and tools to teachers, nonprofit organizations and youth, we can continue to facilitate the ability of individuals and organizations to think critically, communicate effectively, demonstrate creativity and collaborate with others -- all essential skills for success in this globally competitive world.

With your support, PMIEF can continue to effectively address these primary areas of focus:

- *PM Knowledgeable Youth*: By providing teachers with project management skills and tools for use in their classrooms, they will change the way children learn, live, and plan for the future.
- *PM Capable Nonprofits/NGOs*: With project management knowledge, nonprofits are able to create the framework needed to more effectively carry out their missions, many of which address significant global issues.
- *PM Ready Workforce*: Through academic and professional development scholarships as well as student and professional awards, we can sustain and grow a well-equipped, 21st century workforce.

It's your generosity that makes these outcomes – and so many others – a reality.

Again, my deepest gratitude for your support of PMIEF in advancing *project management for social good*®.

Sincerely,

Jeannette L. Barr, MS
Executive Director
